# Infinity Stainless 316L

## Working Pressure Chart

### || Rated up to 40 bar

Infinity Stainless pipe and fittings are guaranteed to withstand a maximum pressure of **40 bar** for sizes **28mm to 54mm** when installed using a high-pressure **Novopress ACO203XL** tool and matching high-pressure collars.

For sizes **76mm and above**, the **Novopress ACO403** tool and corresponding high-pressure collars must be used.

When installed with a standard press tool and standard collars, the system supports a working pressure range of **16 to 40 bar**.

| SIZE        | STANDARD PRESSURE        | MAXIMUM PRESSURE*               |
|-------------|--------------------------|---------------------------------|
| DN15-22mm   | 40 bar                   | 40 bar                          |
| DN28-35mm   | 25 bar                   | 40 bar                          |
| DN42-108mm  | 16 bar                   | 40 bar                          |
| DN139-168mm | 16 bar<br>(single press) | 20 bar<br>(double offset press) |

**Need to hire a Novopress ACO203XL tool and high-pressure collars?** We can help. Rates start from \$65.00 for 1-day hire, with preferential rates for longer hire periods.
